Summary

Full-Stack Developer specializing in **React** and **Laravel**, with a proven ability to build modern, responsive, and high-performance web applications. Skilled in crafting clean front-end interfaces and robust back-end APIs, with a focus on scalability, security, and user experience.

Education

Bachelor's degree in Commerce

Grade: Very Good

09/2018 – 06/2022

Mansoura University

Professional Experience

Freelance Full-Stack Developer

05/2024 – Present

Frontend Developer (React) , Backend Developer (Laravel)

- Enhanced client satisfaction by delivering high-quality work within deadlines.
- Adapted quickly to changing project requirements, demonstrating flexibility and adaptability under pressure.
- Developed customized solutions to address unique client needs, resulting in repeat business and referrals.

Military Service

Grade: Good Role Model

01/2023 – 03/2024

Projects

Chat-App

11/2025 – 11/2025

Real-Time Social Interaction Platform

Developed a fully real-time social platform with live posts, instant likes, real-time chat, and notifications for key activities.

Technologies: Laravel, WebSockets (Reverb/Echo), Events & Broadcasting, Notifications, JavaScript.

E-commerce

E-commerce Website – Online Shopping Platform

Built a responsive e-commerce application using **React** with an external API integration.

- Designed the UI with Bootstrap and implemented dynamic rendering (map, filter).

- Created Home, Products, Single Product, and Auth pages.
- Added product details with **Add to Cart** and a cart system with auto total calculation.
- Used React Router for smooth navigation.

Restaurant Management System

Full-Stack Web Application (Laravel & Next.js)

Developed a full-stack restaurant system using **Laravel** (backend) and **Next.js** (frontend) with full authentication and role-based access.

- Built responsive pages: Home, About, Menu, Booking, Login, Register.
- Users can view the menu and create bookings.
- Admins manage users, menu items, and bookings through a dashboard.
- Admin can add/remove products and approve/reject bookings.
- Integrated real-time notifications for booking requests and admin responses.

Courses

Full-stack Development

03/2025 – 08/2025

Amit Learning

Completed an intensive **Full-Stack Web Development program**, covering both frontend and backend technologies.

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React, Next.js
- **Backend:** PHP, OOP, Laravel
- Gained experience in building RESTful APIs and integrating frontend with backend systems.
- Developed multiple full-featured web applications through hands-on projects

Front-end Development

06/2024 – 10/2024

Online

Acquired practical front-end skills in HTML, CSS, JavaScript, and React. Developed responsive UIs and interactive components with real-world projects.

Skills

Front-End

- Html 5
- Css 3
- Vanilla Js
- TypeScript
- Responsive Design

Back-End-

Frameworks

- Laravel Php

Front-End

- ### **Frameworks**
- React.js
 - Next.js
 - Redux

Api

- Rest Api
- API Integration

Interface Frameworks

- Bootstrap 5
- TailwindCss

Database

- Mysql
- ERD

Back-End

- Php Native
- OOP Php
- Authentication & Authorization
- CRUD Operations

Technical

- Git
- Github
- Figma

Soft skills

- Teamwork
- Flexibility
- Communication
- Analytical Thinking
- Problem-Solving
- Good communication skills in English (writing & speaking)
- Adaptability

Certificates

Full-stack Development

Completed an intensive full stack web development program covering both frontend and backend technologies. On the frontend, I learned to build responsive and interactive user interfaces using HTML, CSS, JavaScript, Bootstrap, React, and Next.js. On the backend, I gained hands-on experience with PHP, Object-Oriented Programming (OOP), and Laravel for developing scalable server-side applications. The program also included training in designing and consuming RESTful APIs, and integrating frontend with backend systems. Developed several full-featured web applications as part of practical projects throughout the course.
