🪪 Profile

Full-Stack Developer specializing in **React** and **Laravel**, with a proven ability to build modern, responsive, and high-performance web applications. Skilled in crafting clean front-end interfaces and robust back-end APIs, with a focus on scalability, security, and user experience.

🎓 Education

Bachelor's degree in Commerce   09/2018 – 06/2022
Grade: Very Good   Mansoura University

💼 Professional Experience

Freelancer   05/2024 – Present
Freelancer

- Enhanced client satisfaction by delivering high-quality work within deadlines.
- Adapted quickly to changing project requirements, demonstrating flexibility and adaptability under pressure.
- Developed customized solutions to address unique client needs, resulting in repeat business and referrals.

🏛 Military Service

Grade: Good Role Model
01/2023 – 03/2024

📁 Projects

E-commerce
E-commerce Website – Online Shopping Platform
E-commerce Website (React, Bootstrap, External API)
Developed a responsive e-commerce web application using React and integrated it with an external API.

- Designed and styled the UI with Bootstrap.
- Implemented dynamic rendering with React functions such as map and filter.
- Built Home page, Product listing page, Single Product page, and Authentication pages (login & registration).
- Added Product details view with "Add to Cart" functionality.
- Developed a Cart system with automatic total calculation.
- Used React Router for smooth navigation between pages.

Restaurant Management System

Full-Stack Web Application (Laravel & Next.js)

Developed a full-stack restaurant management system using Laravel for the backend and Next.js for the frontend.

- Built Home, About, Menu, Booking, Login, and Register pages with responsive design.
- Implemented full Authentication system with User and Admin roles.
- User features: browse the website, view the menu, and create bookings.
- Admin features: access dashboard to manage users, menu items, and bookings.
- Admin can add/remove products, accept/reject bookings, and monitor site activity.
- Integrated real-time notifications:

- User booking triggers a notification to the admin.

- Admin's approval/rejection sends a notification back to the user.

📚 Courses

Full-stack Development   03/2025 – 08/2025

Amit Learning

Completed an intensive Full-Stack Web Development program, covering both frontend and backend technologies.
- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React, Next.js
- **Backend:** PHP, OOP, Laravel
- Gained experience in building RESTful APIs and integrating frontend with backend systems.
- Developed multiple full-featured web applications through hands-on projects

Front-end Development   06/2024 – 10/2024

Online

Acquired practical front-end skills in HTML, CSS, JavaScript, and React. Developed responsive UIs and interactive components with real-world projects.

🧠 Technical Skills

Front-End
- Html 5
- Css 3
- Vanilla Js
- TypeScript

Back-End-Frameworks
- Laravel Php

Front-End Frameworks
- React,js
- Next.js
- Redux

Api
- Rest Api

InterfaceFrameworks
- Bootstrap 5
- TailwindCss

Database
- Mysql
- ERD

Back-End
- Php Native
- OOP Php

Technical
- Git
- Github
- Figma

🔧 Soft skills

- Teamwork
- Flexibility

- Problem-Solving
- Good communication skills in English (writing & speaking)

Certificates

Full-stack Development
Completed an intensive full stack web development program covering both frontend and backend technologies. On the frontend, I learned to build responsive and interactive user interfaces using HTML, CSS, JavaScript, Bootstrap, React, and Next.js. On the backend, I gained hands-on experience with PHP, Object-Oriented Programming (OOP), and Laravel for developing scalable server-side applications. The program also included training in designing and consuming RESTful APIs, and integrating frontend with backend systems. Developed several full-featured web applications as part of practical projects throughout the course.
